If you are planning a destination wedding; or are having a wedding in December, January or February; or will be having a wedding during a weekday or need a smaller selection of package, then customized packages can be available.

2nd Photographer

If you would like additional coverage by a dedicated second photographer, this can be added to any package for additional fees.

What does unlimited images mean?

We don't limit images to a set number. View our wedding and engagement galleries for the variety of images we provide:
dophotography.smugmug.com

Online viewing and print ordering:

Images from engagements and weddings are posted online at dophotography.smugmug.com for viewing, online sharing, and print ordering. There you can purchase professional quality prints and products, and show off your wedding to all of your friends and family.

The Print-Release:

High-resolution digital images are given to you on USB drive with a print release that allows you to print them anywhere and anytime that you want.

Engagement Session

You pick the location for your engagement session. We go where you want to go. Additional time can be purchased for longer sessions.

Custom Coffee Table Album

We provide a choice of a leather bound or an image-wrap style book. Sizes and quantities depend on package. You select the photos that go in it, we design the layout with your input, you proof it, and we print it only when you are happy with it. Albums can be upgraded for additional fees.

Can I add items or upgrade packages?

Any element, such as prints, albums, disks, digital download galleries, more coverage time, mileage, photographers, and other products can be added to any package for additional fees.

How much is the deposit?

The non-refundable deposit on any standard package is \$500.
